

SUFFOLK COUNTY OFFICE OF HUMAN RESOURCES
PROJECT IMPACT GENERAL ANNOUNCEMENT #7

In an effort to ensure the highest-quality outcome, the launch of the County's new Human Resources Management System and Payroll System, Workday, has been postponed to later this year.

After reevaluating the project's readiness for the planned go-live this summer and advising the County's Project Impact Steering Committee, the Project Impact Management Team determined that a postponement to later this year was in the best interest of the County. The new launch date will be announced soon.

In the meantime, the current payroll platform will stay in place until the launch. The Project Impact Team will be sharing additional information on how you can **get ready** for Workday using resources available on the HRMS website [Project IMPACT](#).

Our goal has been, and remains, improving the delivery of HR and Payroll services to County employees, and this delay is required to ensure a high-quality deliverable and a seamless transition to Workday.
