1. Overview of HR/Managerial Self-Service Functions

This document serves as a resource to navigate through Workday as a Suffolk County employee with Human Resource capabilities as well as an employee with managerial functions. Use this document as a guide for finding how to access and complete common tasks that these employees may be required to do within Workday.

Please be advised this document does not explain the steps to complete certain self-service processes, however, it references the job aids and lessons within which you may find the necessary steps to complete the desired task.

If you need additional assistance in performing a certain function, please contact us at HRMShelpline@suffolkcountyny.gov.
Suffolk County has implemented Workday as a modern human resources management system (HRMS) to provide self-service tools with an intuitive and user-friendly design. Workday is a global human resources system that is used to manage and coordinate all the resources, information, and functions of an organization. System capabilities include managing resources as well as accessing and viewing personal, job, and pay information in one centralized platform.
